

ECOICEGRIP™

1 (844) ICE-GRIP
www.EcolceGrip.com

EcolceGrip is an innovative product that delivers exceptional traction on icy surfaces and resists freeze-thaw conditions that render other products unusable. It is manufactured using engineered traction wood chips that are buoyant and will rise to the top during freeze-thaw conditions, providing ongoing traction.

- ❄ The best product for freeze-thaw cycles.
- ❄ Excellent solution for problematic areas.
- ❄ Safe for pets & landscape plants.
- ❄ Doesn't cause property damage.
- ❄ Extends the efficiency & lifespan of all ice-melters.
- ❄ Provides superior traction on ice.
